Automated Oak Gates & Garage Doors From Design to Installation

OAK LEAF GATES - Installation and Automation price guide

June 1, 2011

To help you cost your particular project we have put together this short guide, using some of the gates that were shown on our award winning stand at Chelsea Flower show in 2011. This guide shows the costs that are involved in a typical installation. The only additional costs would be for access controls. All prices include VAT @ 20%.

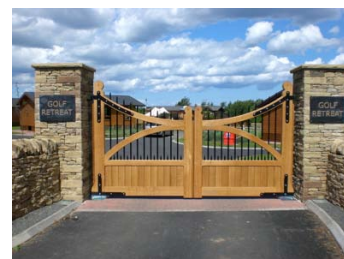

The **Aero** entrance gates

Oil finish	£220
* Installation of gate and posts	£910
Total	£3,610

* The installation and automation prices quoted are purely a guide as every project is individual.

**The automation price quoted for entrance gates is for the FROG underground automation system and for the traditional garage doors the price is for the VER system.

Access controls - the level of security required at the property entrance will dictate the nature of the entry system installed. We offer a wide range of systems, from time-controlled push buttons to video and telephone entry systems. Each system is tailored to suit your own requirements.

Please contact us by telephone, email or post for a specific estimate for your own project.
